

- Formed in 2006 by Navy and Army veterans, both degreed Software & Security Engineers with over 30 years' combined business experience working within Federal Government markets
- Headquarters in Clearwater, FL with business operations at MacDill AFB (FL), Manassas (VA), Suffolk (VA), Fort Meade (MD), Aberdeen Proving Ground (MD), Huntsville (AL), and Washington (DC)

TS Facility Clearance - DCAA Compliant - ITAR Licensed/DBA Insured

CORE CAPABILITIES

- ❖ Program/Project Management
- ❖ Agile Software Development
- ❖ Software Product Sustainment
- ❖ Healthcare/Health Informatics
- ❖ Human Resources Consulting Services
- ❖ Cybersecurity and Assessment
- ❖ Systems Engineering
- ❖ Solution design and test methodologies
- ❖ Net Centric Architectures
- ❖ Coalition Interoperability Assessment & Validation
- ❖ Applied Sciences
- ❖ Joint Testing & Evaluation
- ❖ Quick Reaction Testing & Evaluation
- ❖ Social Sciences

Business Consulting

Official member of the SAP® PartnerEdge® open ecosystem with experienced Certified Enterprise & Cloud-based Solution Consultants

Our SAP SuccessFactors Consultants possess more than 10 years' experience and remain current with their education and certifications. We providing HCM and HRIS guidance and support services for SAP SuccessFactors customers. Our services provide clients with access to tools that assess employees' current value, and streamline and automate day to day HR processes. In addition, reduce risk by ensuring legal compliance with OSHA, FDA, HIPAA, and other laws and standards.

Current Certifications:

- ✓ SAP Certified Application Professional - SuccessFactors Performance & Goals
- ✓ SAP Certified Application Professional - SuccessFactors Compensation
- ✓ SAP Certified Application Professional – SuccessFactors Variable Pay
- ✓ SuccessFactors Languages Consulting

Innovation Centers

Our innovation centers create an environment where ideas, and best practices are shared, learning is promoted and proficiency is elevated

Our Services Include:

- Project and Program Management
- Full Life-Cycle Agile/Waterfall Methodologies
- Systems and Application Development
- JAVA/J2EE; MUMPS; Delphi; Oracle; Ruby on Rails; PostgreSQL; Github
- Software Quality Assurance & Testing
- Software Configuration Management (CM)
- IBM Rational Team Concert for Agile Teams
- ✓ Certified Project Management Professionals (PMP)
- ✓ Certified Scrum Masters (CSM)

Solution Engineering

Our solution design and test methodologies, including Cervello's proprietary ESM³GT® test methodology designed for Quick Reaction Testing and development of Tactics, Techniques, and Procedures (TTPs)

We tackle complex problems requiring innovative solutions and state-of-the art processes Systems Engineering (SE) and tools such as model-based technology. We provide specialized expertise for Research, Development, Test & Evaluation (RDT&E) of weapons and associated system of systems (SoS). We also, maximize Software & IT Development Productivity with model-driven-architecture technology and engineering team collaboration, and we effectively build, test, and validate quality Real-Time engineering-level Modeling & Simulation (M&S) in support of RDT&E providing confident results.

Applications and domains including the following:

- ✓ Precision Weapons
- ✓ Rotary and Fixed Wing Aircraft Platforms
- ✓ Network Enabled Weapon Systems
- ✓ Cyber Security and Assessment
- ✓ Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR)
- ✓ Battlespace Management Systems

Managed Services

Our Managed Services provides expert guidance, and software and hardware support to transition technology management responsibility from the client

- Information Technology Infrastructure Library
- Cloud Computing
- HP Application Lifecycle Management (ALM)
- HP Project and Portfolio Management (PPM) Center
- ✓ ITIL Certified Professionals
- ✓ Certified Information Systems Security Professionals (CISSP)

What We Do

Products:

- SAP SuccessFactors
 - Foundation Platform (EP)
 - Performance & Goals (PM & GM)
 - Compensation (COMP)
 - Learning
 - Languages
- HP
 - Project & Portfolio Management (PPM)
 - Application Lifecycle Management (ALM)

Services:

- PM Services
- Developer Services
- SQA Testing Services
- Interoperability Testing, Assessments & Validation
- Joint Feasibility Studies/Joint Test & Evaluation
- Quick Reaction Testing (QRT)
- Tactics Techniques & Procedures (TTP) Development

Methodologies:

- Capability Maturity Model Integration (CMMI)
- Project Management & Program Management
- Information Technology Infrastructure Library (ITIL)
- Agile Software Development
- Exploratory Sequential Mixed Method Modified Grounded Theory (ESM³GT®)
